Catastrophic (CAT) coverage is fixed at 50 percent of your approved yield and 55 percent of the price election. CAT is 100-percent subsidized with no premium cost to you except for an administrative fee of $300, regardless of the acreage.

Definitions
Approved Yield—The average yield per acre based upon your actual production history (APH) and used to determine your production guarantee.

Production Guarantee—Pounds guaranteed per acre determined by multiplying your approved yield times the coverage level percentage you select.
Duties in the Event of Damage or Loss

- If crop damage occurs, give notice within 72 hours of initial discovery of damage.
- Protect the crop from further damage if possible by providing sufficient care.
- If representative samples are required of any unharvested acreage, the strips must be at least 5 feet wide (at least two rows), extending the entire length of the field. Samples must not be harvested or destroyed until after a field inspection is made.

Insurance Units

**Basic Unit:** A basic unit is all insurable acreage of an insurable type of tobacco in the county in which you have a share on the date of planting for the crop year and that is identified by a single FSA farm serial number at the time insurance first attaches under these provisions for the crop year.

Late Planting

For any insured acreage initially planted after the final planting date (FPD), the production guarantee will be reduced as follows:

1. One percent per day if planted during the 1st through the tenth day immediately following the FPD;
2. Two percent per day if planted during the 11th through the fifteenth day after the FPD.

The premium amount for late planted acreage will be the same as for timely planted acreage.

Prevented Planting

Your prevented planting coverage will be 35 percent of your production guarantee for timely planted acreage. Additional prevented planting coverage levels are not available for tobacco.

Loss Example

This example is for cigar binder type and assumes 60-percent coverage level, price election of $5.90, approved yield of 1,800 pounds per acre, and basic units.
